Beauty & Health

PRANYVA come from the word PRANA. PRANA (literally in Sanskrit means «life», «breath» or «constant motion») one of the central notions of the traditional Indian philosophy, is understood as a vital energy of life. PRANA refers to the cosmic energy believed to come from the sun and connecting the elements of the universe. The universal principle of energy or force, responsible for the body's life, heat and maintenance, PRANA is the sum total of all energy that is manifest in the universe. PRANA is a force that permeates the entire Universe and energises all things in the Universe. Even the vacuum of space is filled with this invisible energy. The word Ayurveda consists of two words and means SCIENCE (Veda) of LIFE (Ayur). And the word Ayur is a synonym of PRANA.

Applying the ancient wisdom of Ayurveda, PRANYVA Beauty Care Products are made from the highest quality natural ingredients and comply with stringent modern Western cosmetic standards.

- ❖ Only 100% pure natural botanical ingredients from natural sources
- ❖ Rare Himalayan herbs
